

Workshop Series: Ergonomics for Employers

Goal of the Workshop

To provide information and practical training to assist employers and health and safety professionals to identify and correct ergonomic problems in the workplace.

What is Included in the Workshop?

This two-day training program covers the following topics:

Day 1

- Ergonomics – An Introduction
 - Terms of reference
 - Populations & Anthropometrics
- Stages of an Ergonomics Program
- Applying Ergonomics in Injury Prevention and Return to Work Programs
- Overview of Common Workplace Injuries
- A Functional Approach to Job Analysis – Taking Objective Measures and Calculations
- Identifying Risk Factors – Analyzing the Job from an Ergonomic Perspective

Day 2

- Ergonomic Controls – Turning the Analysis into Intervention
- The Role of the Worker in the Problem Solving Process
- More on Materials Handling
- Office Ergonomics
- Case Study Review
- Review of Report Formats & Checklists
- When to Use Professional Support
- Ergonomic “Equipment”
- Question and Answer Period

Each participant will receive a complete reference package covering the above topics.

Space and Equipment Requirements

This workshop requires a classroom large enough to accommodate all participants with audio-visual equipment that can support a Power Point presentation.

Cost of the Workshop

The cost of the two-day workshop is \$3500.00. Travel and accommodation expenses outside of the City of Winnipeg are not included in this price.

Please call for more information on this and other services available.
